\*Tuition and ancillary fees per academic year. Fees are approximate and subject to change.

\*\*All January start programs have a summer term (May - August).

## INTAKE START

S September

J January

M May

You have the option to study two 1-year programs which is equivalent to two years of study in Canada

## SUPPLY CHAIN MANAGEMENT

1 Year - 2 Semesters Ontario College Graduate Certificate

The Supply Chain Management program is an eight month Ontario College Graduate Certificate designed for university and college graduates looking for a career in logistics and the supply chain management sector. Students will learn about manufacturing operations, purchasing, transportation and physical distribution in private and public industry. The program offers integration of negotiating skills, managerial accounting, professional communication, quality assurance and risk management, and value-added components to enhance global competitiveness. Graduates of the program will have a comprehensive background to pursue careers in procurement, logistics, planning, inventory management, transportation, customer service, customs coordination and related supply chain processes.

You have the option to study two 1-year programs which is equivalent to two years of study in Canada

## PROJECT MANAGEMENT

1 Year - 2 Semesters Ontario College Graduate Certificate

The Project Management program provides theoretical and practical knowledge to manage projects in a timely and cost-effective manner. This highly sought after skillset provides valuable project management experience that is applicable across numerous industries. Closely aligned with the Project Management Institutes (PMI) Project Management Body of Knowledge (PMBOK) curriculum, the Sault College 8-month graduate certificate program introduces students to the systematic practice of managing individual and multiple projects through the application of current methods, tools, and technologies.
