SAULT COLLEGE PROFESSIONAL DEVELOPMENT TRAINING

- Level-up or enhance your career options with our on-demand, online, micro-credentials.
- Sault College's micro-credentials are rapid courses that can help you get the skills and knowledge that employers need. They help people retrain and upgrade their skills to find new employment.

Find your courses at <https://training.saultcollege.ca>

Sault College Corporate Training Institute

Do you currently offer your training, learning and development face-to-face and are thinking about switching to eLearning and training opportunities? Sault College's eCorporate Training has a solution for you!

Sault College now offers corporations, businesses, not-for-profit and for-profit organizations an eLearning platform that includes a wide range of micro-credentials to support your training and learning needs. We offer corporations various subscription models and packages to suit your growing industry needs and development.

However, if our subscription models are too substantial for your organization, we also have customized packaging options to meet your specific training and learning needs.

Lastly, we also offer eLearning Design and Development services to support the transformation of your face-to-face training materials and resources to robust, immersive, and engaging eLearning modules and courses. Our services include qualified curriculum reviewers and editors, instructional and learning designers, eLearning developers, quality assurance and control, and accessibility and copyright review.

SAULT COLLEGE CARES ABOUT MEETING THE NEEDS OF LOCAL, REGIONAL, AND NATIONAL CORPORATIONS AND ORGANIZATIONS AND WOULD BE HAPPY TO SERVE YOU!

FEATURED CERTIFICATES

Diversity and Intercultural Relations

Learners will examine diversity issues in a social context, explore critical differences in cross-cultural communication and identify the sources, causes, forms and manifestations of these issues in our society.

Financial Technology

This certificate provides cutting-edge training on FinTech application areas such as retail banking, payments systems, financial management, commercial and corporate banking, investment banking and capital markets, insurance, commodities, and even global currencies.

Social Media and Digital Communication

Learners will gain the practical skills and knowledge needed to effectively use and leverage social and digital media tools required by today's employers and will learn about social media marketing and strategies.
